The communication folks may have heard but HQ tipped me off that during the hearing on the Toledo algae bloom on Feb. 5th, the rep from CA (Jerry McNerney?) asked several questions about the California aquifer exemption situation- it's up on youtube and beginning around 40 minutes in.

Hi All,

The hearing yesterday went very well. Thanks so much for everyone's tremendous work to prep for this hearing, especially with only one week to pull it all together. I've attached a hearing summary.

Immediately following the hearing, the subcommittee did a markup of the bill, and they passed the bill to the full committee. The full committee markup of the bill will likely be next week. I've included links below for the hearing and the markup. Right now, the video isn't posted on the hearing website. I'm checking to see if it will be posted soon and will let you know if I hear anything back.
